Subject: Canadian radium & Uranium Site | Final Removal Assessment Sampling Report

Dan,

Attached please find the Final Removal Assessment Sampling Report which summarizes the radon and soil sampling activities conducted by EPA with the support of START V at an area of concern (AOC) located in proximity to the Canadian Radium and Uranium Site. The sampling event was performed at the AOC on September 8 through 11, 2019. The comments made by EPA regarding the previous version of this report (DCN: STARTV-01-D-0070) have been incorporated

If you have any questions or comments please let me know.

Thanks,

Ben Nwosu
